# I'm Ready for My Close Up

*My students need a camcorder, a digital camera and a memory card to have access to different methods of receiving information from me, their counselor.*

## My Students

My students come to school each day with smiles on their faces and a willingness to learn. Technology is a HUGE part of the classroom, and I want to support it with my work with students. At our school, students are exposed to technology daily, and they are sometimes better able to use their computers than I am. I want to use multimedia approaches to education and counseling. My teachers are utilizing technology with their students, and I would like to do the same.

*I am the counselor at a Title 1 school where 100% of our students receive free breakfast and lunch.*

**Ms. Holden**

Grades 3-5

Marion E Cahlan Elementary School  
N Las Vegas, NV

Nearly all students from low-income households ?

I will use the still camera to take photos of students to add to the videos I make and the camcorder to make informational videos for my students and teachers. This will enable to me to reach more students at one time. I will be able to make quality videos to teach and inform my students.

## My Project

I am requesting a camcorder, a digital camera and a memory card so that I can reach more students at once. I am an elementary school counselor in North Las Vegas Nevada, and I am the only counselor at my school.

*I have to come up with creative ways to get information to my students and teachers, and, since there is only one of me, a video is a great way to do that.*

Recording video messages is a great way for me to reach out to my 850+ students and get my counseling messages across. I will be able to make and send videos to my teachers to play when they are able to without taking too much time away from the learning process. I also plan to make a "video club" for the upcoming school year. I will be able to work with students to make videos that are important to them.

Donations to this project are now being matched, thanks to support from An Anonymous Arts Funder. Every child should have access to essential art materials and experiences. An education in the arts makes children well-rounded, engaged, and active citizens of the world. This project has been supported in an effort to ensure that all students gain from the many benefits that arts education provides.
